Create Node Red Services

The screenshot displays the IBM Cloud console interface for the application 'Node RED HBTXC 2022-11-05'. The application is in a 'Running' state, indicated by a green checkmark. The interface includes a sidebar with navigation options: Getting started, Overview (selected), Runtime, Connections, Logs, API Management, and Autoscaling. The main content area shows the application's health at 100%, with 1/1 instance(s) running. A slider for 'MB memory per instance' is set to 256, with a range from 0 to 1792. A 'Runtime' section shows a donut chart for 'Node.js' with a total MB allocation of 256, and a status of '1.5 GB still available'. The 'Runtime cost' section indicates that the current and estimated cost excludes connected services. The 'Connections' section shows 0 connections. A notification banner at the top states: 'IBM Cloud Foundry Public is being deprecated. Please see full details.'
